

16th Baltic Sea Summer School on Epilepsy (virtual)

on 5 afternoons between October 4th and 19th, 2023

Announcement

The 16th edition of the well-known Baltic Sea Summer School on Epilepsy (BSSSE) will take place as a virtual event, in the afternoons of October 4, 6, 11, 18 and 19, 2023.

Target audience: The BSSSE are primarily addressed to medical postgraduates and junior researchers (age usually up to 40 years) with a special clinical or scientific interest in epilepsy.

Topics: All topics relate to the curriculum of the ILAE Epilepsy Academy. They include EEG (Norm variants and artifacts; Recognizing spikes), Imaging (MRI and other imaging methods in epilepsy), Pharmacotherapy (How to use ASM monitoring; Where are we with the newest ASM generation?), Status epilepticus, Epileptic aura, Epilepsy and mental handicap, Subjective factors in epilepsy treatment, Neuropathological aspects, and Case-oriented study (3 sessions with distinguished tutors).

Format: The BSSSE will accept 40 participants who work in 4 groups of parallel webtorials. Webtorials are a strictly interactive format where a small group works with a faculty member. Active participation is expected and encouraged by the tutors. Fluency in English is a precondition. Webtorials are *not* recorded for later use.

Registration: Participation is free of charge, and participants will be accepted on a first come – first served basis. The deadline for applications is August 31, 2023. The application must include an application form and a CV plus a one-sentence presentation to be given to the tutors.

Certificates: Certificates will only be given to participants who are present at all webtorials and who fill in the mandatory course evaluation.

For information and application please contact:

Petra Novotny, BSSSE office: petra.novotny@wolfstiftung.org

Deadline for applications: August 31, 2023

The 16th BSSSE is sponsored by the Prof. Peter & Jytte Wolf – Foundation for Epilepsy
